OPENING UP TO THE WORLD
A fresh new identity combined with over 40 years of experience

Established in 2017, Montpellier Management results from the merger of two major institutions of the University of Montpellier: ISEM (Institute of Business Sciences and Management) and the Faculty of AES (Social and Economic Administration).

“Our major commitment is the professional success of our students. It is built on fruitful experiences within businesses, but also on a strong theoretical knowledge, relayed through high quality teaching and pursuit of excellence.”

Marie-Christine Lichtlé
Dean of School

Our values

OPEN-MINDEDNESS
Research and training programmes elaborated alongside our partners.
A strong will to help our students to develop their creativity.

ETHICS
To train responsible managers who will convey values.

TEAM WORK
To foster collaboration between lecturers, members of administrative staff and students.

Our goal

We train top-level managers and provide them with strong theoretical and practical skills to enable them to become effective entrepreneurs and to innovate in international environments.

more than 500
experts and external consultants

90
lecturers

more than 60
members of administrative staff
Montpellier Management offers programmes at the crossroads of management sciences (Finance, Accounting, Marketing, Strategy and Human Resource Management) and administrative sciences (Economics and Law), two fields of study which are adapted to the evolving job market and its needs.
