# Sweden

Sweden is one of the largest countries in Europe, with changing scenery and a varied climate.

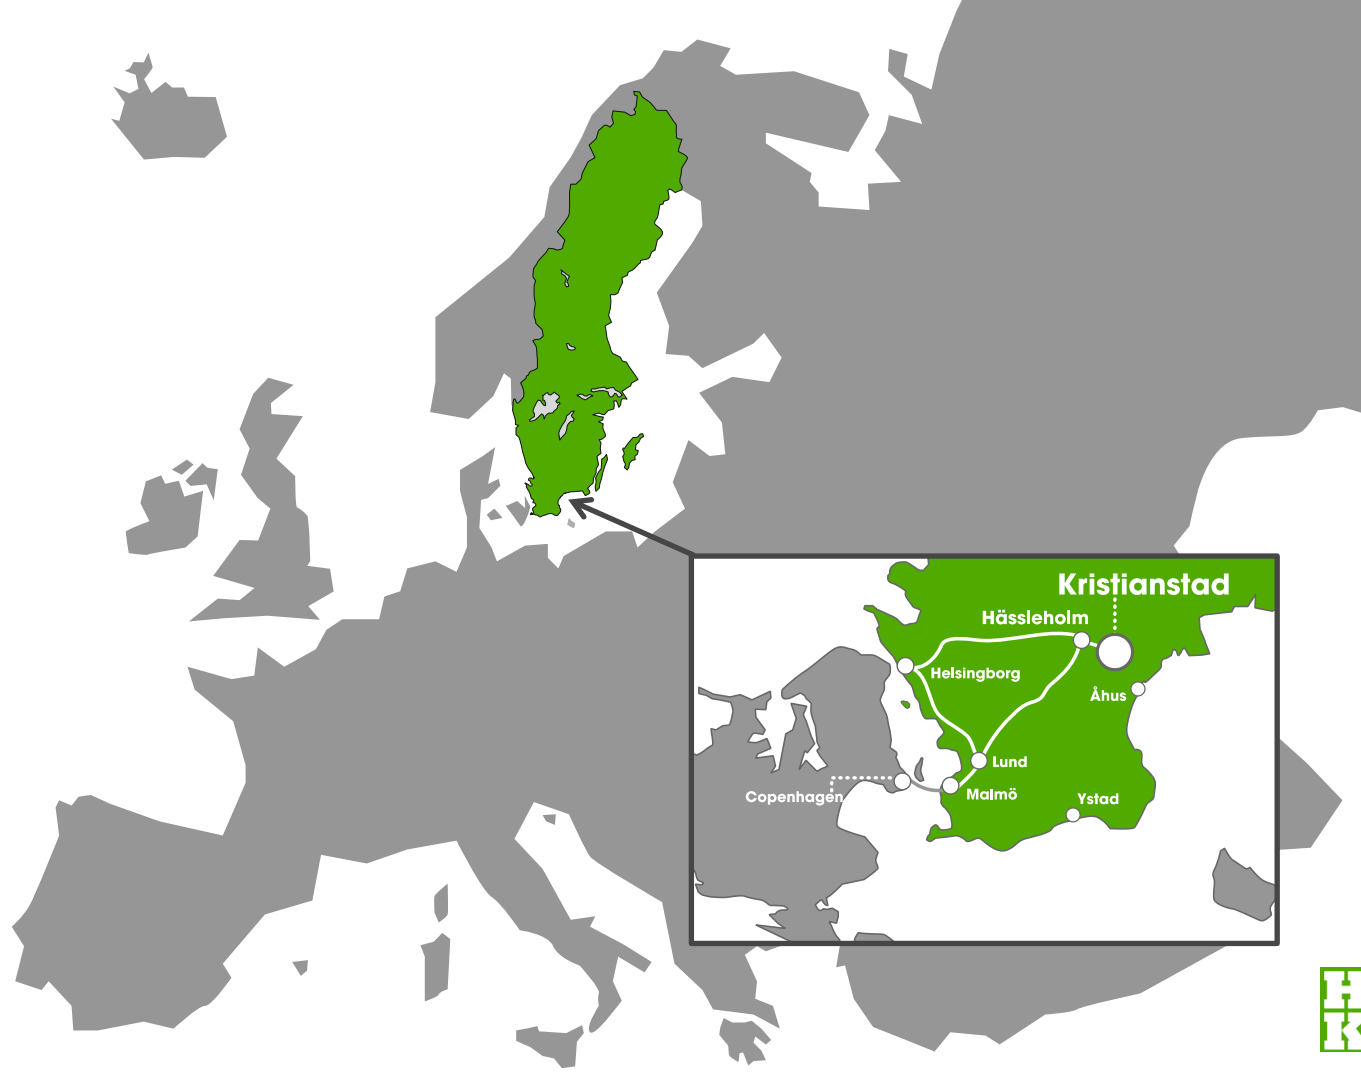

A winter night scene featuring a lit teepee in the foreground, surrounded by snow-covered evergreen trees. The sky is dark with a vibrant green aurora borealis (Northern Lights) visible in the upper portion. The scene is illuminated by the warm glow of the fire inside the teepee and the cool light of the aurora.

The landscape and climate offers great differences,  
from the cold and wild regions of the north to the gentler  
and warmer regions in the south.
