

RETOUR D'EXPÉRIENCE

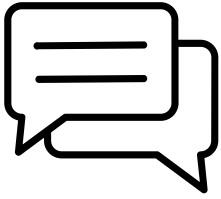

Lincoln, Angleterre

UNIVERSITÉ DE
MONTPELLIER

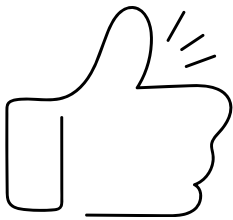

MONTELLIER
MA NAGEMENT

Date:

1. Overall feeling

Lincoln has everything, the whole city is full of students, there is a lot of free activities, everything is made for you to feel good there.

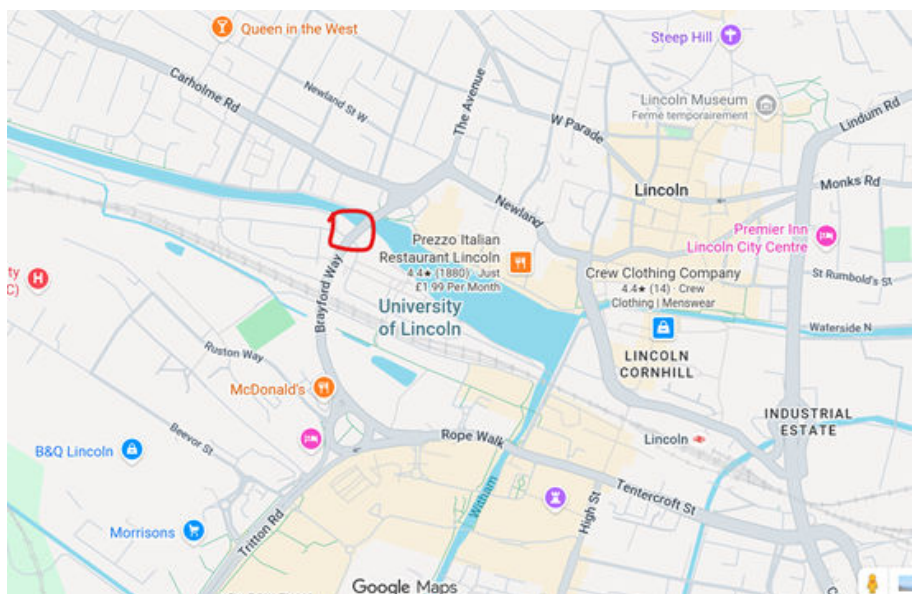

2. Before the travel

- Just an ETA (electronic travel authorization), because you stay less than 6 months, it takes few minutes and cost only 25€.
- I took the train, to Paris and then the Eurostar and then a regional train.
- The temperature is quite the same as the autumn in France, rainy days happen so having umbrella is better but only tourists use it 😊
- I did not have to change bank because mine has a student discharge for travelling.

Every students' accommodation is well situated, mine was near the braydford pool which was beautiful and it took only 5-10mn walking to shops and university.

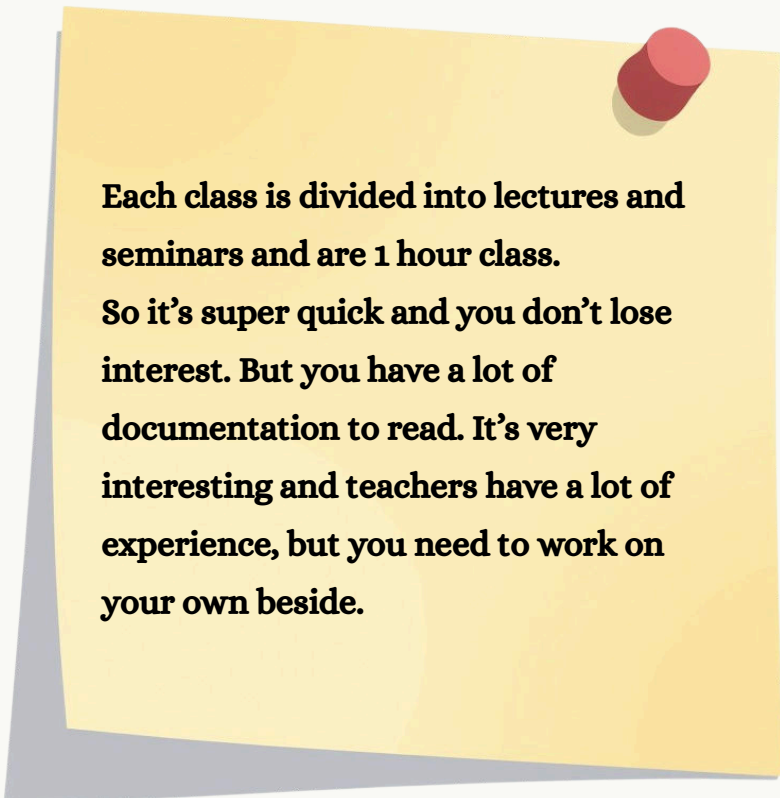

The university has an application website where you can apply for the one you want. Cygnet Wharf was mine and it was perfect.

All rents were the same,
I paid about 3 629£,
4 174€ for a semester.

The courses

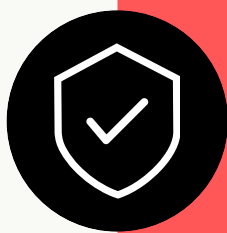

- Sport, culture and Society: super interesting as sport is my passion, the teacher was so nice and very involved in our learning. The assessment was a pre-recording presentation of 25mn.
- International Business Environment : the most difficult in my opinion because topics are deep and the module covers many things (Globalisation, FDI, free trade areas, outsourcing, competitive advantages...). Assessment was one report (2000 words) and one essay (1500 words).
- Principles of Project Management: very interesting but the teaching was not the best, assessment was one report about a project we had to do in team (2500 words). Would recommend it, it is like the following of the management class in MOMA L3IM.
- Leadership and High Performance Teams: one of my favourite, topics were so relevant and different, was very involved in it. Assessments were two essays of 1500 words each. The two essays were on analysing leadership style in a certain context, so many analysis and a lot of different discussions and topics.

Each class is divided into lectures and seminars and are 1 hour class.

So it's super quick and you don't lose interest. But you have a lot of documentation to read. It's very interesting and teachers have a lot of experience, but you need to work on your own beside.

When I live there

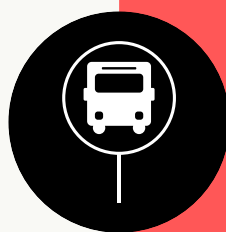

Completely safe, police is everywhere, everything is made for feeling safe.

You have a lot of groceries stores near the university, everything is easy access by walk.

There was WIFI everywhere on the campus and in the accommodation.

Don't need any transport to go to the university and the train station to go abroad is at 5mn walk. There is also many buses, no bikes.

ResLife Students organize events for students who are living in students accommodation, but also there is a "BDE" where events happen every week.

Lincoln is a bit far away from London. I definitely recommend to plan a trip to Wales, but also to Brighton, London of course and there are many hikes to do around Lincoln.

Sport Centre is FREE for everyone living in a student accommodation, you have access to the gym room + all the booking classes (Zumba, yoga, training, boxe,).

Have fun and enjoy the process of getting to know new people.
